

(Best Management Practice)

CURB INLET DEBRIS & ORGANIC FILTER

HOW MUCH TRASH WILL YOUR CURB INLET FILTER CAPTURE?*

Significant Maintenance Cost Reduction

***Effective Debris Storage 2/3 of vault volumn.**

- Hydroscreen was the developer of the non-clogging, low maintenance curb inlet filter.
- High capacity flow, debris removal, organic absorption filter material optional.
- Screens and debris fence designed to meet local specifications for particulate removal.
- High volume debris storage.
- Easy cleaning and rubberizer replacement.
- Easy installation with wedge anchors.
- Emergency bypass.

At last, a BMP that works!

Patent Pending.
